REMARKS

The figures of births and deaths shown in this statement for week ending the 15th October, 1955, relate to 138 towns with an estimated population of 19,694 thousands. The total number of towns is 300 and their population is 38,988 thousands. Thus 46% of the total number of towns representing 50% of the total population is covered in this statement. The number of births and deaths recorded in these towns were 15,991 and 4,989 representing birth and death rates of 42.2 and 13.2 per thousand of population respectively.

(A) States (Parts A and C).—The data here relate to 116 towns with an estimated population of 16,723 thousands. Information about Ajmer, Bihar, Madhya Pradesh and West Bengal could not be included. The total number of towns is 252 and their population is 32,572 thousands. Thus 46% of the total number of towns representing 51% of the total population is covered. The number of births and

deaths recorded in these towns were 14,095 and 4,408 representing birth rates and death rates of 43.8 and 13.7 per thousand of population respectively. The table at the end gives the position by States.

No town recorded a high death rate of 50 or over per thousand of population.

(B) States (Part B).—The data here relate to 22 towns with an estimated population of 2,971 thousands. The total number of towns is 48 and their population is 6,416 thousands. Thus 46% of the total number of towns representing 46% of the total population is covered. The number of births and deaths recorded in these towns were 1,896 and 581 representing birth and death rates of 33.2 and 10.2 per thousand of population respectively.

No town recorded a high death rate of 50 or over per thousand of population.
